Credits

Lead Editor **Production Editor**
Ben Renow-Clarke Kelly Winquist

Technical Reviewers **Compositor**
Brian Deitte, Chris Pelsor Molly Sharp

Editorial Board **Proofreader**
Clay Andres, Steve Anglin, Mark Beckner, April Eddy
Ewan Buckingham, Tony Campbell,

Gary Cornell, Jonathan Gennick, **Indexer**
Michelle Lowman, Matthew Moodie, Carol Burbo

Jeffrey Pepper, Frank Pohlmann, **Artist**
Ben Renow-Clarke, Dominic Shakeshaft, April Milne
Matt Wade, Tom Welsh

Project Manager **Cover Image Designer**
Beth Christmas Corné van Dooren

Copy Editor **Interior and Cover Designer**
Heather Lang Kurt Krames

Associate Production Director **Manufacturing Director**
Kari Brooks-Copony Tom Debolski

CONTENTS

About the Author	xiii
About the Technical Reviewers	xiv
About the Cover Image Designer	xv
Introduction	xvii
Chapter 1 The Drawing API	1
A brief history of the drawing API.....	2
What's come before.....	2
Reviewing the original eight.....	4
Drawing straight lines.....	4
Drawing curves.....	8
Drawing solid fills.....	10
Drawing gradient fills.....	11
Shapes made easy.....	16
Drawing gradient lines.....	18
Filling shapes with bitmaps.....	22
And in with the new.....	26
Copying graphics.....	26
Drawing bitmap strokes.....	33
Preserving path data.....	36
Changing points on a path.....	42
Rendering triangles.....	48
Breaking down the drawTriangles method.....	49
Using bitmap fills.....	54
Introducing shaders.....	61
Summary.....	62
Chapter 2 Filters and Blend Modes	65
Applying blend modes.....	66
Working with the BlendModes application.....	67
Examining the modes.....	69
NORMAL.....	71
MULTIPLY.....	72
SCREEN.....	73
HARDLIGHT.....	74

OVERLAY	76
ADD	77
SUBTRACT	77
LIGHTEN	78
DARKEN	79
DIFFERENCE	80
INVERT	80
LAYER	81
ALPHA	81
ERASE	82
SHADER	83
Using filters	83
BlurFilter	85
DropShadowFilter	87
GlowFilter	89
GradientGlowFilter	91
BevelFilter	94
GradientBevelFilter	96
ColorMatrixFilter	98
Understanding matrices	98
Using matrices with the ColorMatrixFilter	100
ConvolutionFilter	107
Convolving pixels	108
Understanding the parameters	109
Applying the filter	110
DisplacementMapFilter	119
Summary	122
Chapter 3 Bitmaps and BitmapData	125
Understanding bitmaps in ActionScript	126
Introducing Bitmap	126
Accessing BitmapData	127
Understanding channel data	128
Storing grayscale	128
Adding color	130
Representing transparency	131
Specifying channels	132
Loading, creating, and displaying bitmaps	133
Embedding or loading assets	133
Creating bitmaps from scratch	135
Instantiating BitmapData	135
Adding data to a Bitmap instance	136
Drawing existing graphics into bitmaps	137
Specifying the source	138
Transforming source pixels	140
Wrapping up the draw() method's parameters	144

Copying existing bitmap data	144
Cloning	144
Copying pixels	145
Setting regions of pixels	150
Using bitmaps with the drawing API	154
Cleaning up	155
Accessing and manipulating colors	156
Getting and setting single pixels	156
Creating a pixel painting application	157
Determining pixel values	159
Filling regions of color	160
Testing getColorBoundsRect	162
Flooding with color	164
Transforming color	166
Summary	171
Chapter 4 Advanced Bitmap Manipulation	173
Adding Pixel Randomization	174
Dissolving Pixels	174
Making some noise	178
Applying Perlin noise	182
Applying filters to BitmapData	192
Using filters	192
Displacing pixels	193
Adding textures to objects	196
Creating a fisheye lens	201
Performing channel operations	205
Copying channels	206
Copying channels within an instance	206
Copying channels between instances	209
Extracting channel information	212
Setting thresholds	216
Creating 1-bit bitmaps	219
Chroma keying	222
Mapping palettes	225
Assigning custom color palettes	226
Applying levels	231
Posterizing	236
Summary	246
Chapter 5 Pixel Bender and Shaders	249
Understanding shaders	250
Working with the Pixel Bender Toolkit	252
Exploring the interface	252
Creating a kernel	256
Knowing Flash's limitations	266
Using shaders in the Flash Player	267

Embedding bytecode	268
Loading kernels at runtime	269
Allowing for loading or embedding	270
Deconstructing shaders	273
Shader	273
ShaderData	274
ShaderInput	274
ShaderParameter	274
ShaderJob	275
ShaderEvent	275
Passing parameters to shaders	276
Providing accessors	277
Creating a proxy	278
Bending pixels	282
Creating a custom filter	282
Enabling new blend modes	287
Drawing with shaders	292
Creating custom gradients	293
Animating fills	298
Performing heavy processing	299
Summary	302

Chapter 6 ActionScript in the Third Dimension 305

Displaying objects with depth	306
Translating in three dimensions	306
Changing perspective	312
Exploring perspective projection	312
Extruding text	317
Rotating around axes	320
Flipping an image	321
Scrolling text	323
Constructing models out of planes	325
Transforming objects	330
Vector3D	331
Performing simple vector math	331
Measuring vectors	334
Drawing polygons	335
Matrix3D	340
Creating a matrix	341
Exploring matrix methods	342
Managing depth	356
Drawing with bitmaps	360
Recalling drawing triangles	360
Rendering a mesh with drawTriangles()	361
Summary	369

Chapter 7 Using an Animation and Effects Library	373
Introducing aeon animation	374
Tweening values	375
Handling animation events	375
Coding single animations	375
Using complex animators	377
Creating composite animations	380
Sequencing multiple animations	381
Holding and looping animations	382
Running an animation	382
Introducing aether effects	385
Exploring the utilities	387
Simplifying bitmap calls	387
Making adjustments	389
Drawing textures	393
Creating bitmap effects	397
Applying an effect	398
Combining effects	399
Using shaders	401
Creating an image effect	404
Summary	412
Chapter 8 Elemental Animation Effects	415
Playing with fire	418
Turning to stone	427
Waving the flag	436
Bringing rain	446
Summary	454
Chapter 9 Text Effects	457
Distressing text	458
Creating custom bevels	469
Building a text animation engine	484
Summary	501
Chapter 10 Video Effects	503
Applying runtime filters	504
Building a video loader	505
Filtering video frames	512
Extending ImageEffect for new filters	518
Isolating colors for effect	524
Creating a color isolation shader	524
Extending ShaderEffect	534
Highlighting a color for comic book noir	537
Building dynamic post effects	542
Summary	548

Chapter 11 Sound Visualization Effects	551
Loading and playing sound	552
Visualizing sound data	555
Accessing sound data	555
Displaying the waveform	557
Displaying the frequencies	562
Rounding the waveform	565
Evolving effects for visualization	572
Summary	585
Chapter 12 Interactive Effects	587
Using image and mouse input	589
Loading a local image	589
Creating a kaleidoscope	594
Rotating the view	602
Using webcam and keyboard input	606
Coding a distortion shader	606
Distorting user video	619
Working with the Camera class	620
Displaying camera input	621
Applying a shader to webcam data	621
Summary	627
Appendix Developing Within Flash and Flex Builder	631
Working in Flash CS4	632
Working with chapter files in Flash	632
Creating a Flash project from scratch	635
Using the Flex compiler within Flash	637
Working in Flex Builder 3	638
Compiling for Flash Player 10	638
Working with chapter files in Flex Builder	639
Creating a Flex Builder project from scratch	642
Index	650
